

Reading DETECTIVES

2025 Winter Session

A foundational reading skills program for children in grades 2 and 3.

Reading Detectives is a play-based reading program that has supported children in the Deux-Montagnes community since 2007.

Based on evidence-based methods, our program helps children develop essential reading and spelling skills in an interactive environment. Through games, clear instruction, and guided practice, your child will improve their literacy skills and gain confidence.
